

Mentor Connecting Platform - FAQ

Q1: What is the Mentor Connecting Platform?

A1: The Mentor Connecting Platform is an online service designed to connect students and professionals with experienced mentors in various domains.

Q2: How does the platform work?

A2: Users can create profiles, specify their areas of interest, and search for mentors. Mentors can also offer guidance based on their expertise, and connect with mentees via messaging or video calls.

Q3: Is the platform free to use?

A3: Yes, the platform is free for students and mentors, although premium features may be added in the future.

Q4: How can I become a mentor?

A4: To become a mentor, you need to register on the platform, complete your profile, and specify your expertise. Once verified, you will be able to connect with mentees.

Q5: Can I connect with mentors from different industries?

A5: Yes, the platform allows you to search for mentors from various industries, including technology, healthcare, education, and more.

Q6: What kind of guidance can mentors provide?

A6: Mentors can provide career guidance, project feedback, resume building advice, and help with problem-solving in their areas of expertise.

Q7: How do I search for a mentor?

A7: You can search for mentors using filters such as industry, experience, and specific skills. The

platform's search feature helps match mentees with the right mentors.

Q8: Can I have more than one mentor?

A8: Yes, the platform allows you to connect with multiple mentors, depending on your needs and the availability of mentors.

Q9: How do mentors and mentees communicate?

A9: Communication between mentors and mentees happens via in-platform messaging, email, or scheduled video calls.

Q10: How can I give feedback on my mentor?

A10: After a mentoring session, you will be prompted to leave feedback on the mentor's guidance and communication. This helps improve the quality of mentors on the platform.
